

Lowood State High School Subject Information 2027 Year 10

SET Plans- Preparing for 2027

Senior Education and Training Plans (SET Plans) ensure that students and their parents/caregivers have the opportunity to meet with a senior member of staff to discuss their plans for their final years of schooling and beyond.

During the interview a student's current academic progress, subject pre-requisite information and possible future pathway opportunities are discussed.

Individual SET Plan timeslots for Year 9 students will be available for booking on Compass, with links available through the Lowood State High School Facebook page and the school's website. Each timeslot is 15 minutes.

Year 10 SET Plans	Steps/timeframe
	WEDNESDAY 19th August (Week 6) SET Plan Interviews – please bring your SET plan package (Appointments available from 7:30am to 5:00pm)

Senior Schooling at Lowood State High School

Choosing a Pathway- Year 10

What is the role of Year 10 in Senior Schooling?

Year 10 is the conclusion of the P-10 Australian Curriculum and it is also the year that affords students opportunities in the Vocational Education space through the Wednesday program. Students may begin a School Based Apprenticeship and Traineeship or access a range of certificates either at school or at TAFE.

Through the completion of VET certificates students are also 'banking' core points towards their Queensland Certificate of Education (QCE).

Questions to ask yourself as you head into Senior School

What do I want to do after I leave school?

What marks am I currently achieving?

How much school work do I complete outside of school?

Senior Schooling- Year 11 and 12 (QCE)

Lowood State High School has numerous opportunities available for our senior students. The Vocational Education Training (VET) qualifications available at Lowood are some of the most numerous in South East Queensland and Lowood State High School also has a significant number of General Subjects for those wanting to apply themselves to an ATAR pathway.

What is an ATAR?

An Australian Tertiary Admissions Rank or ATAR is a number between 99.95 and 0 that is given to eligible students upon completion of their schooling. This allows universities to determine who will be accepted based on their academic performance.

ATARs will be calculated as follows:

- on a student's best five General subject results
- **OR** on a combination of four General subject results plus one Applied subject result
- **OR** on a combination of four General subject results and one Certificate III or above.

What are my Pathway Options at Lowood State High School?

There are a diverse range of opportunities offered to students from Year 10. Options include undertaking an ATAR pathway, an Industry pathway, being able to enrol in a School Based Apprenticeship/Traineeship and complete Vocational certificates offered by internal and external Registered Training Organisations as well as attending TAFE.

QCE requirements

As well as meeting the below requirements, students must have an open learning account before starting the QCE, and accrue a minimum of one credit from a Core course of study while enrolled at a Queensland school.

Set amount

20 credits from contributing courses of study, including:

- QCAA-developed subjects or courses
- vocational education and training (VET) qualifications
- non-Queensland studies
- recognised studies.

Set pattern

12 credits from completed Core courses of study and 8 credits from any combination of:

- Core
- Preparatory (maximum 4)
- Complementary (maximum 8).

Set standard

Satisfactory completion, grade of C or better, competency or qualification completion, pass or equivalent.

Literacy & numeracy

Students must meet literacy and numeracy requirements through one of the available learning options.

2027 Pathway Options - Year 10

Year 10 ATAR Preparation Subjects

Year 10 English

Year 10 English will introduce students to advanced concepts and skills relevant to the new Senior English subject, while assessing them against the Australia Curriculum. Students will learn to create a variety of complex and sophisticated texts, as well as developing their skills in interpretation, evaluation and analysis.

Year 10 Mathematics

This subject will focus on the topics of Number, Algebra, Probability and Statistics and Geometric Reasoning within the Australian Curriculum. Intensive teaching and learning strategies will be used to expose students to the advanced rigor of the senior mathematics subjects and the assessment requirements to be successful in their study of Mathematics in Year 11 and 12.

Year 10 Mathematics Extension

Mathematics Extension suits high achieving students who are interested in pursuing a career in Science or Engineering. Students study a range of Mathematics topics covering linear and non-linear relationships involving quadratics and circles, Measurement and Geometry of the unit circle that will prepare them for Senior Mathematical Methods. They will be exposed to a range of challenging assessment types including Exams and Problem-solving and Modelling Tasks. A laptop will be essential for the Mathematical Modelling. Students intending to attend university must choose Mathematics Extension in Year 10.

Year 10 Science

The aim of this subject is to cover content and skills from the four strands of Biology, Chemistry, Physics and Earth and Space Science over the course of the year with each strand being studied for one term each. The program is broken up into four distinct units of work/content. Students will be provided the opportunity to develop a deeper understanding of the nature and development of science and how the use of science effects our everyday lives.

Year 10 Science Extension

Science Extension suits high achieving students who are interested in pursuing Senior ATAR science. Students study a range of Science and Maths topics that will prepare them for senior ATAR Chemistry, Physics and Biology. They will be exposed to a range of challenging assessment types including Student Experiments, Research Tasks and Exams.

Year 10

Subject Information

2027

Year 10 Subjects

English (Core) - ENG

Rationale:

The aim of this subject is to focus on the development of communication skills in written, spoken and multimodal contexts. In developing these skills, students will be exposed to and develop a deeper understanding of a variety of traditional and contemporary texts and study the techniques used to create meaning, representations and influence audiences.

Course Structure:

The course covers study in the following topics:

- Representing Culture in the media
- Modernising Shakespeare
- The Human Experience (analytical; novel study)
- The Human Experience (creative; poetry)

Assessment:

Assessment will include written and spoken tasks that may be persuasive, analytical, creative (imaginative) or expository (informative) and include multimodal elements.

Mathematics (Core) - MAT

Rationale:

Mathematics provides students with essential skills in the core content strands of Statistics and Probability, Measurement and Geometry and Number and Algebra. Throughout this course numeracy and key financial literacy competencies will be explicitly taught to ensure all students have the skills they need in their personal, work and civic life.

Course Structure:

The course covers study in the following topics:

- Financial Mathematics
- Probability and Statistics
- Measurement and Geometry
- Number and Algebra
- Graphs and Functions
- Trigonometry
- Applications of technology

Assessment:

Assessment will include two Exams and four Problem-solving and Mathematical Modelling tasks over the year.

Mathematics Extension - MAX

Rationale:

Mathematics Extension provides students with essential skills in the core content strands of Statistics and Probability, Measurement and Geometry and Number and Algebra as well as extending students in preparation for Mathematical Methods and General Mathematics. Throughout this course numeracy and key literacy competencies will be explicitly taught to ensure all students have the skills they need in their personal, work and civic life, as well as providing the fundamentals on which mathematical specialties and professional applications of mathematics are built.

Course Structure:

The course covers study in the following topics:

- Probability and Statistics - Extension
- Measurement and Geometry - Extension
- Number and Algebra - Extension
- Graphs and Functions - Extension
- Advanced trigonometry
- Applications of technology and geometric proofs

Assessment:

Assessment will include four formal Exams and two Problem-solving and Mathematical Modelling tasks over the year.

Science (Core) - SCI

Rationale:

The aim of this subject is to cover content and skills from the four strands of Biology, Chemistry, Physics and Earth and Space Science over the course of the year with each strand being studied for one term each. The program is broken up into four distinct units of work/content. Students will be provided the opportunity to develop a deeper understanding of the nature and development of science and how the use of science effects our everyday lives.

Course Structure:

The course covers study in the following topics:

- Genetics and Inheritance
- Atomic structure and Chemical reactions
- Motion and Forces
- The Universe and Global Systems

Assessment:

Assessment will include a range of formative and summative tasks including: Formal tests, Assignments, Student Experiments.

Science Extension - SCX

Rationale:

Science Extension suits high achieving students who are interested in undertaking an ATAR Science pathway. Topics covered will give students a taste of Senior Physics, Chemistry and Biology while exposing them to the full range of assessment types that they will encounter in Senior Science.

Course Structure:

Term	Topic	Assessment
Term 1	Chemistry	Student Experiment
Term 2	Physics	Semester 1 Exam
Term 3	Biology	Research Task
Term 4	Data & Measurement	Data Test

Assessment:

Students will be exposed to the full range of assessment types that they will encounter in years 11 and 12 Physics, Chemistry and Biology. These include a Data Test, Student Experiment, Research task and an examination.

Humanities - HSS

Pre-requisites: C or above in Year 9 English and History

Rationale:

The aim of this subject is to give students an exciting taster of both Ancient and Modern History. Studying History enables students to understand the actual histories behind popular representations of ancient societies. Students will be provided the opportunity to develop a deeper understanding of archaeological skills, understanding sources, past societies, other cultures, important events and people.

Course Structure:

The course covers study in the following topics:

- ▶ Moments in History – examines a selection of significant moments in modern history and their causes and effects. Assessment: short response examination
- ▶ Personalities from the Ancient World – examines significant people from ancient empires and the effect they have had on our world. Assessment: Independent Source Investigation;
- ▶ Six Wives – examines late medieval England and the rule of Henry VIII, including his split from the church, the pressure on him to have an heir, and the many strong women around him who shaped history. Assessment: research essay.
- ▶ Comparative Ancient Religion: Examines the belief systems of past cultures, e.g. Ancient Egypt, Ancient Greece and Old Norse. Assessment: Short Response Exam.

Assessment:

Assessment will include two short response exams, a source investigation, and a research project.

Benefits of Studying History/ Possible Career Pathways:

This subject will provide a basis for students studying the following senior subjects in the Humanities area:

- ▶ Ancient History
- ▶ Modern history
- ▶ Legal Studies
- ▶ Geography

The career paths are many and varied, and many find History provides the stepping stone for further advancement in the following professions.

Key fields include Education, Research, Communication, Media, Law, and Business. Possible career pathways include: advertising executive, advocate, analyst, archivist, broadcaster, campaign worker, consultant, political aide, editor, foreign service officer, foundation staffer, information specialist, intelligence agent, journalist, legal assistant, lobbyist, personnel manager, public relations staffer, researcher, teacher . . . the list can be almost endless.

Cost:

All basic course costs are covered by the School's Textbook Hire Scheme. Additional costs may occur throughout the course and would be advised prior to the activity. Students may have the opportunity to take part in visits to State Library of Qld and/or UQ libraries in order to learn and practice research skills. They may also have the opportunity to attend exhibitions or events, as they occur, which pertain to the unit being studied at the time.

Additional costs will be subject to numbers and will be invoiced at the time of activity.

Economics and Business – ECB

Pre-requisites: C or above in Year 9 English

Rationale:

The study of Business is relevant to all individuals in a rapidly changing, technology-focused and innovation-driven world. Through studying Economics and Business, students are exposed to authentic and real-life business practices. The knowledge and skills developed in Economics and Business will allow students to contribute meaningfully to society, the workforce and the marketplace and prepare them as potential employees, and entrepreneurs of the future. Students will also study the legal system and how it regulates activities and aims to protect the rights of individuals, while balancing these with obligations and responsibilities.

This subject will provide a basis for students studying the following senior subjects in the Humanities or Business area: Certificate IV Business, Certificate III Business, and Legal Studies.

The skills and capabilities learned in Economics and Business can be applied in everyday life and to a variety of careers ranging from Real Estate, Travel Agent, Airline staff, Tourism, Legal profession, Marketing and Business.

Course Structure:

The course covers study in the following topics:

- Business Fundamentals
- Establishing a Business
- Understanding the Legal System
- Criminal Investigations and Civil Obligations

Assessment:

Assessment will include a folio of activities, a business report, a legal essay and case study work.

Health and Physical Education - HPE

Rationale:

Health and Physical Education aims at providing students with a subject that provides physical opportunities through a variety of individual and team-based sports as well as learning experiences within the classroom that highlight the connection of physical activity and the community. This subject provides the foundations for students preparing to undertake the Senior Sport and Recreation subject. The subject follows recommendations from the Australian Curriculum to ensure students receive content that relates to their life experiences.

Course Structure:

The course covers study in the following topics:

- Futsal
- Oz Tag
- Table Tennis
- Swimming
- Badminton
- Alcohol and Drugs
- Touch Football
- Strength and Conditioning
- Lawn Bowls
- Volleyball
- Athletics
- Mental Health and Wellbeing
- Peer Influences/Pressure

Assessment:

Students will be assessed against the two standards of *Investigating* and *Performance* and *Practical application*. The mode of these assessments will range from written multiple choice and short answer exams to individual and group presentations.

Football Academy - FBX

(By invitation only)

Rationale:

Football Academy aims at providing students with a subject that will develop their football performance through a specialised soccer/futsal program. The focus will be on all aspects of performance including skills, fitness and team play. Students will compete and challenge themselves and each other in a range of dynamic activities.

Course Structure:

The course covers study in the following topics:

Physical Activities:

- Futsal
- Soccer

Theoretical units may include:

- Anatomy and Exercise Science
- Training Program Design
- Psychology of Sport
- Nutrition

Assessment:

Students will be assessed against the standard of *Performance* and *Practical application*. The mode of this assessment will be Practical performance.

Food Specialisation – (Home Economics) - TFD

Rationale:

Hospitality is a major employer all over Queensland and is one of the fastest growing and most profitable industries in Australia. This subject allows students to develop their skills relevant to the industry with a view of progressing to the senior subject of Certificate II in Hospitality. As a subject, Food Specialisation will provide students with useful skills, including interpersonal skills, customer service skills and practical cooking skills.

Course Structure:

The course is flexible and will be designed around student interests and events that are happening at school and within the community. Topics within Year 10 Hospitality prepare students to be successful in Certificate II Hospitality in Years 11 and 12. Some of the topics covered include:

- Food Experimentation
- Café foods
- Sustainable food systems
- Paddock to plate

Assessment:

Assessment will include planning solutions using the design processes taught throughout each term.

Materials and Technologies Specialisation – Industrial Technology and Design (Manual Arts) - TMT

Rationale:

The aim of this subject is to focus on bridging any skill and knowledge deficits by providing students with the opportunity to develop deep understanding of design concepts, safety, materials and processes. Students will be taught safe use of hand tools, portable power tools and fixed machinery.

Course Structure:

The course covers study in the following topics:

- Design
- Hand tools
- Portable power tools
- Static machines
- Associated materials
- Safety
- Timber jointing methods
- Working with and joining sheet metal (seams and edges)
- Finishing
- Processes

Assessment:

Assessment will include project work (practical) and associated booklets (theory).

Drama - DRA

Rationale:

Drama is the study of the Human Context; what it means to be a human being. It enables students to explore characters and situations different from their own, to better understand the world around them and become more conscientious citizens. They will explore acting techniques, voice and movement techniques and various dramatic styles. Students will be required to perform scripts, construct and write scenes, direct actors and analyse, evaluate and interpret dramatic action. This subject will assist students in building confidence in the public arena and provide opportunities to develop social and interpersonal skills. Students will take part in generous amounts of group work and a balance of theory and practical components

Course Structure:

The course covers study in the following topics:

- | | |
|-------------------------|----------------------------------|
| ○ Acting Techniques | ○ Physical Theatre |
| ○ Realism Theatre | ○ Devising and Improvising Drama |
| ○ Elements of Drama | ○ Directing |
| ○ Shakespearean Theatre | |
| ○ Magical Realism | |

Assessment:

Assessment will comprise of *Making*, including group performance tasks, script writing and directing. And *Responding*: including an analytical essay of a live drama performance.

Music - MUS

Rationale:

Music is the combination of sounds to produce meaning. As an art form, Music allows students to understand and develop their emotional and societal maturity through interaction with varying musical styles, cultures and ideas. Students will experiment with vocal and instrumental performance techniques, various compositional styles from historical to contemporary, and varying musical genres. Students will be required to analyse and evaluate music repertoire, compose original pieces of music using manipulations of the elements of music, and perform relevant repertoire. This subject will assist students in developing their social and interpersonal skills as well as building their emotional confidence.

Course Structure:

This course covers study in the following areas

- Vocal and instrumental performance techniques
- Popular Music
- Compositional techniques
- Film Music
- Game Music
- Elements of Music
- Country Music
- Analysis and evaluation of musical repertoire
- Covers of Musical Repertoire

Assessment:

Assessment in Music will comprise of *Making*, which includes performances and compositions in both solo and group formats and *Responding*, which includes analytical essay writing to analyse and evaluate varying musical repertoire.

Visual Art - ART

Rationale:

Students evaluate how representations communicate artistic intentions in artworks they make and view. They evaluate artworks and displays from different cultures, times and places. They analyse connections between visual conventions, practices and viewpoints that represent their own and others' ideas and identify influences of other artists on their own artworks. Students manipulate materials, techniques and processes to develop and refine techniques and processes to represent ideas and subject matter in their artworks.

Course Structure:

The course covers study in the following topics:

- Personal and cultural identity (Ceramics)
- Representations of nature (Printmaking)
- Representations of reality (Sculpture)
- Representations of a theme (Own choice media)

Assessment:

Assessment will comprise of *making* including various practical tasks, research and lead up designs and *responding* including analysing and evaluating artworks/artists and their own art making. There is one making task and one responding task (written) per term.

Dance - DAN

Pre-requisites: Students have previously studied Dance as an elective in Year 8 or 9.

Rationale:

The aim of this subject is to focus on building students' knowledge of dance, movement and the body. Students will explore this by experiencing a variety of dance styles and their purpose. They will extend their understanding of technical skills across a variety of styles, increasing their confidence, accuracy and clarity of movement and projection, and explore expressive skills in order to portray the meaning and intent of routines. Not only will students perform dance sequences and routines, they will also extend their choreographic abilities when choreographing their own sections of dance. Analytical skills will also be developed as students analyse, interpret and evaluate dance pieces through reviews or essays. Participating in this subject builds' confidence, helps develop communication skills, teaches time management, keeps you fit and is plenty of fun.

Course Structure:

The course studies units based around the following;

- ▶ Ballet and Contemporary dance
- ▶ Funk and Hip Hop
- ▶ Musical Theatre styles
- ▶ Choreography
- ▶ Appreciation
- ▶ Performance

Assessment:

Assessment will include individual and group tasks, as well as practical and written components. Assessment will also include Choreography, Performance and Appreciation tasks. Choreography tasks require students to create their own dance sequences within a variety of styles. Performance tasks are developed to assess students on their ability to perform dance routines or sequences across a variety of styles in order to demonstrate their technical and performance ability. Appreciation tasks are usually in the form of analytical essays where students analyse, critique and evaluate performances in relation to their choreographic intent or use of choreographic devices.

Cost:

Students undertaking study in Dance may be required to attend performances in order to extend their knowledge of styles or for the purpose of Appreciation tasks. These are usually limited to one per year and the cost will be subject to student numbers and available performances.

Wednesday Program VET Certificates

Lowood State High School RTO offerings:

Certificate II in Active Volunteering – VAL

Certificate II in Apparel, Fashion and Textiles - VAF

Certificate II Financial Services – VFN

Certificate II Horticulture - VAH

Other courses may be offered if there is enough interest

Certificate II Active Volunteering (CHC24015) - VAL

Rationale:

This qualification reflects the role of entry level volunteer workers. At this level, work takes place under direct, regular supervision within clearly defined guidelines.

This qualification may be used as a pathway for workforce entry. Organisations may require volunteers to undergo relevant background checks.

Course Structure:

The units of competency are:

CORE

BSBCMM201	Communicate in the workplace
CHCDIV001	Work with diverse people
CHCVOL001	Be an effective volunteer
HLTHWHS001	Participate in workplace health and safety

RTO code: 30392

ELECTIVE

CHCCOM001	Provide first point of contact
CHCYTH001	Engage respectfully with young people
CHCDIV002	Promote Aboriginal and/or Torres Strait Islander cultural safety

Assessment:

To gain this qualification, students must successfully complete a range of assessment tasks including various theoretical, practical and verbal assessment and interviews with the trainer/assessor.

Note:

This qualification also includes students having to complete **20 hours** of volunteer placement. Trainers endeavour to give students opportunities throughout their projects to complete a portion of this placement however, additional placement outside of school hours, may be necessary to reach the **20 hours**.

Pathways:

This qualification is designed for individuals who wish to engage in a meaningful way with their community through volunteering. The qualification develops interpersonal, organisational and time management skills that are transferable to all workplace environments and will be used throughout participants' lives.

Costs:

All course costs are covered by the School's Textbook Hire Scheme.

Certificate II in Apparel, Fashion and Textiles (MST20722) - VAF

Rationale:

This qualification reflects the role of entry level fashion designer.

There are six core units and six elective units needed to complete this course.

Course Structure:

The units of competency are:

CORE

MSMENV272	Participate in environmentally sustainable work practices
MSMWHS200	Work Safely
BSBCMM211	Apply communication skills
MSTAT2005	Sew materials by machine
MSTGN2018	Work in the TCF industry
MSTGN2023	Identify and handle fabrics and textiles

ELECTIVE

CUADES201	Follow a design process
MSTAT2001	Prepare and communicate design concepts for simple textile products
MSTAT2003	Modify patterns
MSTAT2004	Lay-up, mark and cut uncomplicated fabrics and lays
CUAACD101	Use basic drawing techniques
MSTAT2002	Draw basic sketches of textile products

RTO code: 30392

Assessment:

To gain this qualification, students must successfully complete a range of assessment tasks including various theoretical, practical, verbal and observable assessments. They must:

- Present lead up ideas and final fashion design of textiles and garments by the set date.
- Display a folio which reflects ideas, research and class work using elements and principles of fashion design to develop final fashion products.
- Interviews with trainer/assessor – review / reflection of own work

Pathways:

This qualification is designed for individuals who wish to engage in designing and producing a fashion product to prepare for workforce entry or vocational training pathways.

It is suitable for individuals who require:

- An introductory overview of skills and processes applied in the fashion industry
- Skill in the design and production of garments and textiles
- Skill in the development of unique fashion and textile drawings and designs
- Entry level skills in Fashion Design and production of garments and textiles.

Costs:

A materials cost is associated with this course to ensure consumable products can be provided to students. In 2026 this course cost is \$90 subject to change. Excursions are available, at a cost, to further enrich and engage the student's experiences in this course.

Certificate II in Financial Services (FNS20120) - VFN

Rationale:

This entry level qualification provides the foundation skills and knowledge to use business knowledge in the financial industry. This certificate course gives students the opportunity to engage in and understand a range of business practices through a range of real-life situations and simulated environments. It will help develop and build a broad range of knowledge and skills such as carrying out a range of activities to complete financial business tasks, identify risks and provide advice and customer support to a team. Students will develop a greater understanding of the Australian financial system and how credit works. This course will engage students in learning activities which will allow them to develop an understanding of various business skills such as creating routine word processing documents, development of business communication skills, working in a team, organisational skills, creation of budgets and savings plans, and an understanding of consumer debt and credit.

Course Structure:

This 1 year course is a combination of theory and practical-based face to face learning delivered at Lowood SHS over 4 terms. It is designed to give students a thorough understanding of how the theory components apply to real-life situations. A total of 8 units, 4 core units and 4 elective units, must be completed to a competent standard for students to be awarded this Certificate.

CORE UNITS

BSBCMM211	Apply communication skills
BSBTEC201	Use business software applications
BSBWHS211	Contribute to health and safety of self and others
FNSINC311	Work together in the financial services industry

ELECTIVE UNITS

FNSFLT211	Develop and use a personal budget
FNSFLT212	Develop and use a savings plan
FNSFLT213	Develop knowledge of debt and consumer credit
FNSFLT216	Develop knowledge of taxation

RTO code: 30392

Assessment:

To gain this qualification, students must successfully complete:

- various theoretical, practical and verbal assessments
- practical assessment
- interview with trainer/assessor

Pathways:

This qualification is designed for people seeking a pathway into a variety of business-related occupations. Possible job titles relevant to this qualification include: Customer Service Officer, Finance Officer, Teller, Cashier, Personal Assistant, Lending or Administration Officer. On completion of this qualification students may wish to further their education by enrolling in one of the following qualifications:

BSB30120 - Certificate III in Business; BSB40120 – Diploma of Business.

Costs:

All course costs are covered by the School's Textbook Hire Scheme. Other costs may occur throughout the course, such as excursions, and would be advised at the time of the activity.

Certificate II Horticulture (AHC20416) - VAH

Rationale:

This qualification provides students with the opportunity to gain experience with various practices within the Horticulture industry.

Topics covered include:

- Workplace Health and Safety
- Propagating plants
- Using tools and machinery
- Identifying and treating weeds and pests

Course Structure:

The units of competency are:

CORE

AHCPCM201	Recognise Plants
AHCPMG201	Treat weeds
AHCPMG202	Treat plant pests, diseases & disorders
AHCSOL202	Assist with soil growing media, sampling & testing
AHCWHS201	Participate in Work Health and Safety Processes

RTO code: 30392

ELECTIVE

AHCWRK209	Participate in Environmentally Sustainable Work Practices
AHCMOM203	Operate basic machinery & equipment
TLID1001	Shift material using manual handling methods
AHCWRK205	Participate in Workplace Communications
AHCSYN203	Undertake propagation activities
AHCNSY201	Pot up plants
AHCPCM202	Collect, prepare, preserve plant specimens
AHCPGD203	Prune shrubs & small trees
AHCPGD201	Plant trees and shrubs
AHCWRK208	Provide Information on Products & Services

Assessment:

To gain this qualification, students must successfully complete a range of assessment tasks including various theoretical, practical, verbal and observable assessments and sit an interview with the trainer/assessor.

Location:

The Horticulture Precinct is located on the grounds of Lowood SHS. Students will undertake activities in multiple locations around the school. There may be excursion opportunities available off-campus.

Pathways:

This qualification will provide students with a strong foundation knowledge with which they could use to pursue a career in the Horticulture industry.

Costs:

A fee of \$70 is associated with this course for the purchase of a shirt that students will wear when participating in practical activities. There may also be costs associated with any excursion opportunities that arise throughout the year but these will be kept at a minimum. Students will also be required to supply their own hat, gardening gloves and work boots.

Wednesday Program VET Certificates

External RTO Offerings:

**Certificate II Resources and Infrastructure Work
Preparation (Drilling and Mining) - VRI**

**Certificate II Sampling and Measurement and Certificate
III Laboratory Skills - MSL**

**Certificate III Health and Community Services (Health)
- VHL**

**Certificate III Supply Chain Operations (Logistics)
- VLO**

**Certificate IV Justice Studies (See Professional
Investigators College of Australasia- Website)**

School Based Traineeship (SBT)

TAFE

Resourcing the Future

VET in Schools Program

RII20120 - Certificate II in Resources and Infrastructure Work Preparation (RTO CODE: 31440)

How to Complete this Program?

Online, practical training and Industry field trips: Students will learn with ADI's online subjects and then do the practical training sessions. Assessments will be undertaken in both the eLearning platform and practical group activity sessions. Students will also participate in field trips where they will have the opportunity to engage and gain valuable information from Industry experts within the resource and infrastructure sectors.

Outcomes

Upon successful completion of this program, students will gain:

- Qualification: **RII20120 Certificate II in Resources and Infrastructure Work Preparation**
- Statement of attainment: **HLTAID011 Provide first aid**
- Statement of attainment: **RIIWHS204E Work safely at heights**
- 4 QCE points
- Employability skills

Personal Protection Equipment (PPE)

ADI will supply

- 1 x Orange/Yellow drill long-sleeved shirt

Student to supply

- 1 x Navy cotton drill pant, or jeans
- 1 x pair of sturdy sandshoes or boots
- 1 x White safety/hard hat – white

Cost of Training Course

RII20120 Certificate II in Resources and Infrastructure Work Preparation – Fully funded by the Queensland government.

Out of pocket costs – PPE - Approx. \$50 (boots or shoes/ Drill Pants/ Hard hat/ Leather gloves) Camp and Field Trip Transport \$100.

Certificate II in Sampling and Measurement Certificate III in Laboratory Skills (Upgrade)

Registered Training Organisation- ABC Training/Consulting

RTO Code: 5800

Qualification Code and Title: MSL20122-Certificate II in Sampling and Measurement

MSL30122-Certificate III in Laboratory Skills

Course Outcomes

This course will teach students the skills and knowledge required to perform a range of sampling and measurement activities as part of laboratory, production or field operations in the construction, manufacturing, food processing, resources and environmental industry sectors.

As a result of completing Certificate II in Sampling and Measurement and Certificate III in Laboratory skills, participants will know how to:

- Safely participate in laboratory and field work
- Collect and measure site samples in environmentally sustainable ways
- Calibrate laboratory equipment
- Perform basic tests in the laboratory and in the field
- Record and represent data
- Prepare working solutions
- Contribute to the achievement of quality objectives and communicate with other people

MSL20122 Certificate II in Sampling and Measurement

MSL912002	Work within a laboratory or field workplace
MSL922002	Record and present data
MSL943004	Participate in laboratory or field workplace safety
MSL952003	Collect routine site samples
MSL972002	Take routine site measurements
MSL933009	Contribute to the achievement of quality objectives
MSL913004	Plan and conduct laboratory/field work
MSMENV272	Participate in environmentally sustainable work practices

*Successful completion of MSL20122 Certificate II in Sampling and Measurement is required before commencing MSL30122 Certificate III in Laboratory Skills

Fees

VETiS funded for eligible students. If students are deemed ineligible, a Fee For Service arrangement of \$1900 is available.

MSL30122 Certificate III in Laboratory Skills Upgrade

MSL933005	Maintain the laboratory/field workplace fit for purpose
MSL933008	Perform calibration checks on equipment and assist with its maintenance
MSL973025	Perform basic tests
MSL973026	Prepare working solutions
BSBCMM211	Apply communication skills

Fees

Certificate II in Health Support Services + Certificate III in Community Services

Additional Learning Option – Dual Qualification

Registered Training Organisation: Strategix Training

RTO Code: 31418

Qualification Code and Title: HLT23221: Certificate II in Health Support Services

CHC32015 Certificate III in Community Services

Course Overview:

Health and community services training is linked to the largest growth industry in Australia, estimated to grow by 20% over the next five years. These programs combine to provide students with entry-level skills necessary for a career in the health sector and provide a pathway to pursue further study. Skills acquired in this course include first aid, effective communication, workplace health and safety, infection control, understanding common medical terminology, conducting health checks, recognising healthy body systems and working with diverse people.

Refer to training.gov.au for specific information about the qualification.

Successful completion of the dual qualification contributes up to a **maximum of ten (10) credits** towards a student's **QCE**. Up to 4 points for the completion of Certificate II and up to a further 6 points for the completion of Certificate III.

Work Experience:

Students are highly encouraged to undertake work experience in a health or community service facility to strengthen their skills, knowledge and employability. This work experience is **not** a requirement to complete the course. Strategix Training considers industry experience to be very important for students to gain a deeper understanding of day-to-day operations in relevant roles.

Cost: HLT23221 Certificate II in Health Support Services is fee free under VETiS funding by the Qld Government for eligible students. Additional to the VETiS funding, HLT33115 Certificate III in Health Services Assistance will be charged at a discounted rate of \$500 per student.

*** If the student has used their VETiS funding, the course fee will be \$1,500 for the Certificate II plus an additional \$500 for the Certificate III.

Duration: 4 terms

TAFE Opportunities

Qualifications

TAFE provide a number of opportunities to students to undertake Certificates while at school. For details regarding these courses please seek a TAFE at Schools Guide. While a number of these opportunities can be undertaken fee free through VET in Schools funding, some do incur additional costs. Please ensure you read all documentation prior to submitting an application to ensure you are aware of the costs involved.

Students wishing to undertake TAFE in 2025 will be asked to complete an electronic expression of interest as part of their SET Planning process.

Priority is given to students in Year 11 and 12, students undertaking TAFE in Year 10 would need to have strong understanding of their future career pathway and be able to work independently.

School Based Traineeships

School-based apprenticeships and traineeships provide students with the opportunity to commence their chosen apprenticeship or traineeship prior to leaving school. Students can commence their career path by combining school, paid work and on-the-job training. An SBA or SBT is negotiated between the student, parent/carer, employer, supervising registered training organisation (SRTTO) and school to ensure it provides a genuine school-based learning opportunity and forms an appropriate component of an overall school program. On completion of the apprenticeship or traineeship, students are eligible to receive a nationally recognised qualification. Any competencies that are completed prior to leaving at the end of Year 12 can contribute to the Queensland Certificate of Education.
